RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) CONTINGENCY PLAN
IMPLEMENTATION REPORT (CPIR) NO. 93-003 - TGH-246-93

Enclosed is a draft letter to the Colorado Department of Health (CDH) which transmits RCRA CPIR No. 93-003, also enclosed. The report outlines the events associated with a release greater than one pint/one pound of sulfuric acid containing lead from a storage battery.

This report should be delivered to CDH no later than April 2, 1993, as required by 6 CCR 1007-3 Section 265.56(j)(1-7). A review of the wrapping and packaging procedure is currently underway to find a more secure method of packaging these batteries to reduce the risk of this incident being repeated. Additionally, a desk reference procedure is being written for Property Utilization and Disposal (PU&D) personnel to outline precautions in transporting these batteries.

If you have any questions regarding this matter, please call K. A. Holstein at extension 2435 or J. M. Mynard at 6087.

RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) CONTINGENCY PLAN
IMPLEMENTATION REPORT (CPIR) NO. 93-003

Enclosed is RCRA CPIR No. 93-003 which documents the status and information concerning a release of greater than one pint/one pound of sulfuric acid containing lead from a storage battery.

Your office was notified on March 19, 1993, that the RCRA Contingency Plan had been implemented as a precautionary measure. The Environmental Protection Agency (EPA), Region VIII was notified by facsimile on March 19, 1993. If you have any questions regarding this subject, please contact K. A. Holstein at 966-2435 or J. M. Mynard at 966-6087.
